The Bigger Picture

Yes there is fear  
Yes there is isolation Yes there is panic  
buying Yes there is sickness Yes there  
is death

But,  
There is togetherness There is family  
There is teamwork There bonding

There is hope

All around the world people are slowing down and reflecting  
All around the world people are waking up to a new reality

To how big we thought we were  
To how little control we really have  
To what really matters  
To what's important.

This is our chance  
Our moment  
Our opportunity

To be the purpose  
To become one

To Be the cure
