History Corona Virus Analysis

Call it what you want, virus, pandemic, disease but it's taking over our world. It's tearing apart families from each other and it's preventing people from doing the few things that bring happiness and enjoyment into their lives. I believe there are two parts to this time. God is trying to teach us a lesson gossip, yes gossip. Just like this virus is being spread so fast worldwide, so is gossip. You might not realize but on average one gossips for 52 minutes a day. Which is kind of crazy, that's a whole hour of your day just gossiping. It's insane how fast one little statement about someone can reach halfway across the world in a matter of minutes, so similarly with a single touch or sneeze can spread this virus to destroy countries and cities. There's also another side to this. Corona has taken over everyone's lives, it's taken away so much from families, events and big milestones in peoples lives. I'd be lying if I said I wasn't scared. I don't know how long this is going to go on for. I don't know if we're ever going to be let out. Lockdown more like letdown. I had so many plans and exciting things for this year, and now I am just stuck in my room playing Fortnite till 3 am. The world as we know has taken a turn that no one expected and will never go back to what it was. But I believe we will get through it, even if it takes a while. I believe in our world, the people protecting it, and most of all that God is doing this for a reason.
