How I feel about COVID-19?

I do not necessarily know how I feel about the COVID-19 but I have an idea. I feel that it is very tough situation living through this crisis because we cannot do the every day routine that we usually do and are used to. We also do not get to go outside which is difficult because I love to be outside, but I did not appreciate nature as much as I did when it was taken away. This goes for everything though, you take things fo granted, but when it is taken away we appreciate it more.
